

COMPANY PROFILE

Matrix Energy Distribution is a dependable supplier of top-quality Petrochemical products. Our aim is to cater to the needs of an ever-changing energy market responsibly. Matrix Energy has established itself as a modern, technically sophisticated, and experienced supplier of Petrochemical and Petroleum products to clients across the country.

The success of Matrix Energy is attributed to its experienced board of directors, who lead a skilled group of individuals committed to providing profitable and sustainable growth to the company while offering exceptional service to clients. Our company takes pride in its human resources, who have demonstrated excellent dedication, skill, and initiative to propel the group to higher achievements.

Our company's excellent reputation is built on its state-of-the-art processes and customer-centric work culture. Our knowledge and expertise in overcoming regulatory, market, and supply chain hurdles are unrivaled. Most importantly, our company believes that investing in innovation and people will continue to power its growth in the years to come.

Matrix Energy is one of the leading providers of downstream petroleum products, including Fuel Oil, Base Oil, Diesel, Rubber Process Oil, Grease, MTO and Lubricants. Our experience in whole sale trading petroleum products in the region over the last several years with our pioneer company called AC OIL HOLDING, has helped it understand the requirements and preferences of its customers.

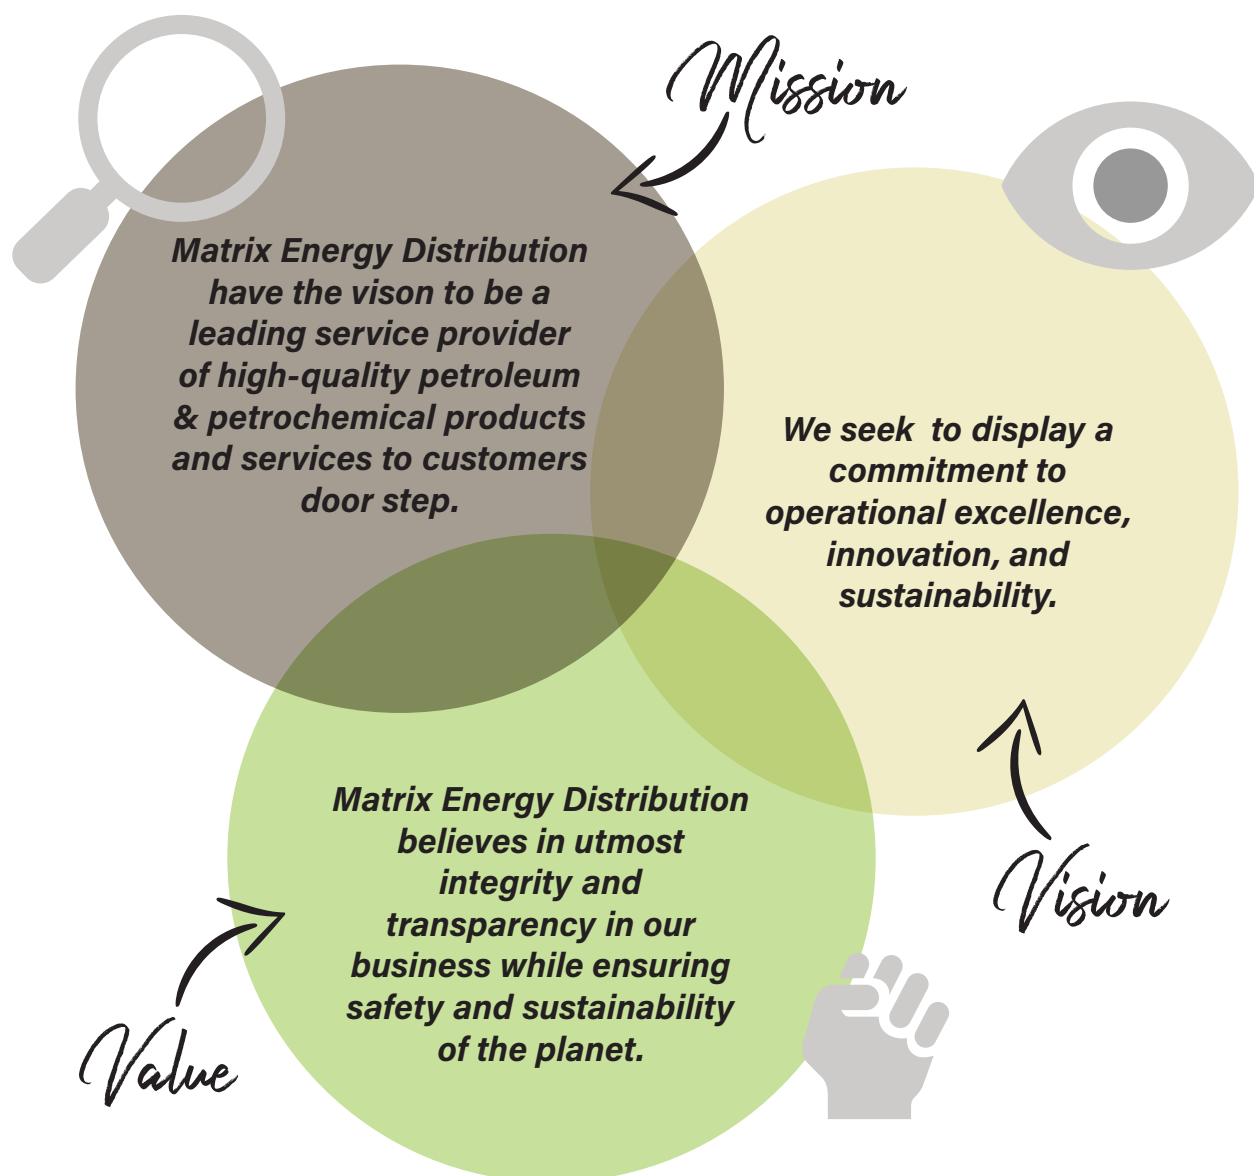

Matrix Energy values its commitment to providing the best service to its clients and nurturing long-standing relationships with its shareholders, suppliers, and customers.

We wish all the stakeholders, local governments, financial institutions, suppliers, and, most notably, many of our loyal customers, peace and prosperity in the years to come.

ABOUT US

Matrix Energy Distribution , has been a leading player in the oil industry for over the years, and its story has been one of constant innovation. The company's unwavering focus on quality, safety, and sustainability has made it a recognized force. Matrix Energy Distribution is committed to delivering top-quality Petroleum & Petrochemical products and services that help its clients grow their businesses. With a well-established logistics and supply network, the company is the go-to choice for scores of companies in the region. Matrix Energy Distribution proactively seeks out new business opportunities and implements best practices to ensure that its customers are always satisfied with the products and services they receive. The company's precision, pace, and passion are the driving forces behind its continued success.

MISSION & VISION

WHY CHOOSE US?

Matrix Energy has the commitment to becoming the most trustworthy manufacturer of petrochemical products has been instrumental in our success in the industry. Our presence has been established through years of evolution and dedication. Over the years, our petrochemical and petroleum trading division has been leveraging our well-established distribution network, resulting in phenomenal growth. Today, we are proud to be recognized as one of the finest providers of down-stream petroleum products, including Fuel Oil, Base Oil, Diesel, RPO, Grease, and Lubricant. Our products are designed to improve the lives of people from all walks of life, and we are committed to reaching out to all segments of society with our high-quality products.

Exceptional Quality

At our petroleum trading division, we prioritize delivering exceptional products and services to our customers in the region. Our tireless efforts have earned us the respect and goodwill of numerous clients who trust us to provide only the best quality products.

Commitment

We believe that our commitment to quality is what sets us apart from the competition, and we are constantly seeking ways to improve and enhance our offerings

We strive to embody integrity in everything we do and to achieve measurable and sustainable results. Our industry presence is founded on values such as social responsibility, environmentally sustainable and ethical practices which guide our business endeavours and shape our vision for a better future.

Base Oil

Base oil is a basic raw materials in the formulation of lubricants production, providing the foundation for various finished lubricant products. It is a type of refined crude oil that is specially processed to make production of Engine Oils, Gear Oils, Hydraulic Oils, Grease , Transformer Oils, Light Hydrocarbon oil production. The resulting product is a high-quality oil that is used in a variety of industrial and automotive applications. It has multiple Grades like Gr. I, Gr. II, Gr. III that is segregated for multiple range products manufacturing and direct Utilities at various Machines and Equipment.

Fuel Oil

Fuel oil is a type of liquid fuel that is commonly used in power generation, burning, heating, and marine applications. It is a by-product of crude oil refining during distillation and is typically classified based on its Density, viscosity & Gross Calorific Values. It has three set of grades like LIGHT FUEL OIL, HEAVY FUEL OIL, BUNKER FUEL OIL.

Gas Oil (HSD)

Gas oil, also known as diesel fuel, is a type of liquid fuel that is commonly used in transportation, construction, and agriculture. It is a refined petroleum product that is produced through a process of fractional distillation and subsequent refining. Gas oil is a relatively high calorific fuel, which means it has a higher energy than many other liquid fuels. This makes it an excellent choice for use in engines that require optimum combustions inside engine to generate proper torque output from Diesel engines, Its used in transportation and other heavy equipment.

We are also distributors of Bharat Petroleum Corporation Limited (BPCL) for HSD, for Door Step Diesel Delivery in West Bengal region only. We are fully equipped with PESO approved diesel dispense bowsers like Mobile Petrol Pump, like

We are registered as Startup India- Fuel Inlet Entrepreneurship registered at DPIIT ministry.

Grease

Grease is a semi-solid lubricant that is used to reduce friction and wear in various applications, including automotive, industrial, and household uses. It is a mixture of a thickener and a base oil, with other additives added as needed.

Mineral Hydrocarbon Oil

These Oil are derived from crude oil through a refining process that separates the various hydrocarbon components based on their boiling ranges. Hydrocarbon oils include mixture of all straight chain petroleum & Petrochemical mixtures like, Gas oil fractions, Condensate oil, Slop Oils, Mixtures of fractional bottom fuel mixtures, lubricating oils & etc. These oil are widely used in Mining exploration, low RPM diesel engines, Borewell excavation machines, heating at boilers, power generation, and many other industrial processes. We are bulk whole sale importer, trader, Distributor of this product.

Rubber Process Oil

It is a type of petroleum-based oil that is commonly used in the manufacturing of rubber products. It is a mixture of various hydrocarbon compounds, including naphthenic, paraffinic, and aromatic compounds. We are bulk whole sale importer, trader, Distributor of this product.

MTO / Paint Solvent

Mineral Turpentine Oil or Paint Solvents or White spirit also known mineral spirits or, generically, "paint thinner", is a petroleum-derived clear liquid used as a common organic solvent in paints. It is a mixture of aliphatic, open-chain or alicyclic C7 to C12 hydrocarbons. Commonly known as MTO, Paint solvents are the most widely used solvent in the paint industry. It is primarily used as a cleaning solvent, as a degreasing solvent and as a solvent in paints, varnishes, and asphalt products. In households, white spirit is commonly used to clean paint brushes after use, to clean auto parts and tools, for manufacturing bituminous paints, to remove adhesive residue from non-porous surfaces, and many other common tasks. We are one of the wholesaler & trader of this product to do sales in retail and bulk both as per industries & market requirements.

CAREER OPPORTUNITIES

Have ever dreamed of working in a dynamic and fast-paced environment, then Matrix Energy Distribution may be the perfect fit for you. As one of the leading petrochemical companies, we offer unlimited opportunities for those with the skills and passion to take their careers to the next level. Our exceptional workforce is the driving force behind our success, and we are always on the lookout for highly talented individuals who are eager to make a difference. At Matrix Energy Distribution, we believe that investing in our human capital is essential. We foster innovation and excellence, and we are always looking for new ideas to future-proof our business and overcome the most complex challenges.
